The list of officers of the Officers' Reserve Corps on August 31, 1919, is contained in several volumes. The first volume contains a complete alphabetical list showing name, rank, section in which appointed, and State in which residing. Each of the succeeding volumes, after Volume I, includes additional data as to residence and date of birth and is complete with reference to the officers contained therein. These succeeding volumes are arranged by States or groups of States, showing the officers residing therein and are independent of the general index volume.

Supplemental lists to the various volumes will be published from time to time, which will contain the names of Reserve Officers added since August 31, 1919.
